## COUF IT ENTIAL - 2 -25X1 25X1 It was bacesaary for an individual to have an MS degree to be on the faculty of Et John 's Medical School. 9. St John's University also had a nursing school with about a hundred students. It provided three years training. The envolument at the National Medical College of Shanghai was considerably higher than at St John's. There were 50 to 60 students in each class, but many were dropped and the school averaged about 12 graduates out of each class. 25X1 The Mational Medical College of Shanghai 25X1 The emphasis at the National Medical 25**X**1 College was on training teachers rather than general practitioners and training emphasized general medicine, surgery, pediatries, neurology, and adatous. 32. The National Medical College had four hospitals affiliated with it, two of which were in Shanghai; the Chung Sen Hospitel, with about seven hundred bads and the First Red Gross Hospital with approximately four hundred beds. 13. Rational Medical College also was affiliated with two hespitals in Chunghing. The Central Hospital, -located in the suburbs, had about 13 hundred bade, all on one floor. The second was Municipal Hospital, with about three hundred beds. 14. The National Madical College also had a school of nursing which provided three year training, and a school of plarancy which offered a four year course. 15. The National Redical College was such less expensive than St John's Mediaal. 25X1 School. 25X1 one microscope The equipment was excellent. one cadaver for each two students. for each student 25X1 16. 25X1 17. No medical students were permitted to get married until they had completed their residency. 25X1 18. 25X1 19. Atudents were required to spend some time in Public Health in remote areas 25X1 biggast difficulty was that the farmers would not listen to questors. ∞ 25X1 particularly women doctors, and wanted no part of vaccinations, shots for typhoids thelers, etc. Women assigned to such tunining prinscrily had to specialize in Wall work because of the complete lack of assertance on the part of the general public. 25X1 the government is now trying to 25X1 25X1 increase the enrollment in medical schools by a very large percentage.

However, as far an quality of instruction is conserned, the Chimese instructors at St John's National Medical College, and other schools would be exceptionally well trained and sould be an axwellent

the quality of training would go down under the diremmentances because the

basic sciences need equipment and sufficient equipment would not be available to

job of training others if they did not escape or commit suicide.

bandle a heavily increased enrollment.
